Project Name	Project – News TrackerApplication
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	In the busy schedule people are not ready to waste their time on reading the unwanted news.so we gonna create the news application that will shows the important and relevant news to the user with user friendly interface and they are getting quick pick of the day.
2.	Idea / Solution description	We will provide them application with good user interface and ads free and we will show only the important news what they want.
3.	Novelty / Uniqueness	In our application we will provide the like and dislike button for every news if they like particular news click the like button for that or else dislike that. By the statistics of likes and dislikes of the customer we will recommend the news.
4.	Social Impact / Customer Satisfaction	Customer satisfied by reading essential and relevant news for them without wasting so mush of time.
5.	Business Model (Revenue Model)	Revenue is based on how much time customer spending time in our application and didn't get any paid off from advertisement because advertisement is none in our application.
6.	Scalability of the Solution	Best graphical user interface, no buffering of information, low latency, Updating of news very quickly, friendly user interface.
